SUMMARY

Bachelor of Information Technology student at Universiti Teknologi PETRONAS (UTP) with strong expertise in digital systems, data analytics, and software development. Experienced in building real-time dashboards, data-driven web applications, and analytics solutions for operational insights. Seeking an internship at PETRONAS (May–Dec 2026) to apply technical skills in software development, data analytics, and digital transformation initiatives, contributing to innovative and efficient business operations.

EDUCATION

Bachelor of Information Technology

2024 – Present

Universiti Teknologi PETRONAS (UTP), Seri Iskandar, Perak

- **CGPA:** 3.30 | **Dean's List:** May 2025 (2nd Year, 1st Semester)
- **Relevant Coursework:** Software Engineering, Web Application Development, Database Systems, Data Science, Statistics and Empirical Method, Internet of Things, Data Communication and Network, Information Assurance and Security, Computer Forensic, Introduction to Oil & Gas Industry, Health, Safety and Environment (HSE)

Foundation in Information Technology

2023 – 2024

Universiti Teknologi PETRONAS (UTP), Seri Iskandar, Perak

PROJECTS

IoT-Based (ISS International Space Station) Monitoring Dashboard

Tools: Python, Flask, REST APIs, HTML, CSS, JavaScript, Leaflet.js, Chart.js, Cloud Deployment

- Engineered real-time space telemetry dashboard. Processed 1,000+ data points daily from ISS orbital systems
- Automated data collection and storage of satellite positioning (latitude, longitude, altitude, velocity) maintained stable data collection throughout the project duration.
- Visualized historical trends through interactive maps and charts, enabling pattern analysis over 30+ days of tracking.
[\[View Live Project\]](#)

Energy & Carbon Dashboard

Tools: Python, Flask, Pandas, Chart.js, HTML, CSS, JavaScript

- Real-time monitoring dashboard tracking energy consumption (kWh), carbon emissions (kg CO₂), and operational costs across oil & gas industrial equipment.
- Interactive time-series charts built with Chart.js, supporting minute-level data and equipment-specific filtering.
- Built a responsive web interface simulating data from 300+ sensors to generate actionable insights.
[\[View GitHub\]](#)

Project Management System

Tools: C#, Blazor, HTML, CSS, FireBase

- Built a web-based application to manage tasks and workflows with database integration.
- Implemented an interactive user interface to improve usability and project visibility. [\[View GitHub\]](#)

Healthcare Mobile App Prototype

Tools: Figma

- Designed a healthcare mobile app prototype supporting medication reminders, appointment scheduling, and multi-user access.
- Applied UI/UX principles to create an intuitive and accessible user experience. [\[View Prototype\]](#)

CERTIFICATIONS

- **Microsoft & Pepper Labs (2025):** Responsible AI, Generative AI, Microsoft Copilot
- **Microsoft Skills for Jobs – Power BI Certificate:** Mastering Data Skills (Jan 2026)
- **ChatGPT Certificate:** Mastering Career Growth with AI (Jan 2025)
- **Oxford Online Placement Test (OOPT) – C2 Proficient**

VOLUNTEER & INVOLVEMENT

Logistics Committee Member, CULTRA 2025 /OMC 2024 / SYNTECH Intronight 2024 & SYNTECH Club

- Supported planning and on-site operations for university and technology events with **100–200+ participants**.
- Coordinated with teams of 15–30 members to manage logistics, participant flow, and technical setup.

Sponsorship & Media Committee Member, MPU4 – L.I.F.T Programme (Laskar Dinamik)

- Facilitated STEM-based activities for Form 3 students at SMK Layang-Layang Kiri, Perak.
- Assisted with sponsorship coordination, media promotion, and technical support during the programme.
- Contributed to a team project awarded Best Project and Best Video.

SKILLS

Technical Skills:

- **Programming Languages:** Python (Intermediate), JavaScript (Intermediate), SQL (Intermediate), C# (Intermediate), Java (Basic), C++ (Basic), R (Basic)
- **Tools & Frameworks:** Flask, Blazor, Git, GitHub, Figma, Power BI (Foundational), Excel, Word, PowerPoint, Canva
- **Data & Web:** REST APIs, Pandas, HTML, CSS

Soft Skills: Teamwork | Communication | Problem-Solving | Adaptability | Learning Agility
